

ADOLF TOWER, COMMUNICATION TOWER (AT WINTERSTEIN) AND PEGASUS:

If you have unlocked all achievements on the campaign sheet, add these Special tiles to the other Landscape tiles during setup **after** you have returned 3 random tiles to the box.

New rule:

At the end of the game, you earn 1 point for each matching edge, depending on the Special tile:

Adolf Tower: You earn 1 point for each Village edge that matches the respective Village edges of this tile. Since the Adolf Tower tile shows 4 Village edges, you can earn a total of 4 points.

Television Tower (at Winterstein): You earn 1 point for each Grain edge that matches the respective Grain edges of this tile. Since the Television Tower tile shows 4 Grain edges, you can earn a total of 4 points.

Pegasus: You earn 1 point for each Forest edge that matches the respective Forest edges of this tile. Since the Pegasus tile shows 4 Forest edges, you can earn a total of 4 points.

Can you manage to score more than 430 points now? Or more than 470 points when playing with the Mini-Expansion Great Mill as well? Will you even be able to reach a new highscore of more than 520 points by adding the new elements from Dorfromantik – The Duel on top?

Place tiles with Forest edges here to gain 1 point per matching edge.
